

Practice Performance Analysis

We are happy to provide a complimentary practice performance analysis for your company. To get started, please answer the following questions to provide us with some preliminary information prior to our consultation. Your responses are confidential.

I. Key problem indicators:

Has your practice been benchmarked?

Is your practice collecting what it should be collecting?

Is your aging 120-day+ insurance A/R more than 25% of your practice revenue? **(This one is a RED FLAG!)**

Are you struggling to collect payments from your patients?

Do you understand your financial reports and financial status?

Are claims getting denied due to patient insurance coverage, credentialing issues, or pre-authorization issues?

Are you aware of HEDIS coding? Split billing?

Are you aware Medicare pays quarterly incentives to qualified providers?

II. Core Questions:

Salutation _____ First name _____ Last name _____

Email _____

Phone number _____

Company name _____

How many monthly patient encounters? _____ Average monthly charges amount? _____

Average monthly collections amount? _____ What is your current AR (bucketwise)? _____

How many months back is outstanding AR? _____

How is your current billing done (in-house/outsourced)? _____

Which EMR/EHR and PM (billing system) do you use? _____
